

JET JET IN

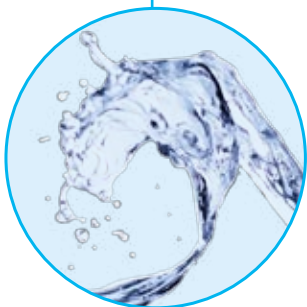

Uštedite prostor i smanjite troškove u jednom potezu

Save space and reduce costs in one go

Voda je zaštićena cijelim putem, od boce do čaše

The entire water path is protected all the way from the bottle to the cup

Visoka kvaliteta, brza opskrba vode u svakom okuženju - voda se može točiti u čaše i u bokale

High-quality, rapid water provision in any environment - water may be dispensed into cups or carafes

**→ Jak i pouzdan
Reliable and rock-solid**

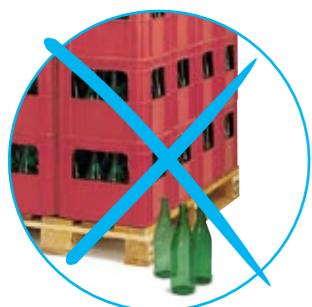

**→ JET - stolni model
JET - Counter-top model**

→ Pruža veliku količinu vode – pročišćenu, gaziranu – 7 litara u kontinuitetu, ohlađenu ili toplu (na **95°C** za pripremu čaja i ostalih toplih napitaka). Aparat se spaja na vodovodnu mrežu i tako postaje valjana zamjena za vodu u bocu, rješavajući tako potrebu za uštedom prostora u barovima, restoranima, hladnjacima ili skladištima.

→ The JET dispenses large amounts of water - still, sparkling (7 liters continuously), chilled or hot at **95°C** - for the preparation of tea and other hot drinks.

This cooler connects to the mains water supply, making it a valid, space-saving alternative to bottled water, eliminating the requirement for management of on-site water bottle provision in bar/restaurant fridges or storage rooms.

Nema više boca koje zauzimaju prostor po kući
No more bulky water bottles at home

NOVO!

Novi sistem hlađenja: veće performanse i efikasnost. 30 Lit./h hladne vode
New Ice Bank: higher performance and efficiency. 30 Lt/h of cold water

Sva voda koju možete poželjeti - hladna, topla, prirodna ili gazirana (7 litara u kontinuitetu)
All the water you could want - cold, hot, still or sparkling (7 liters at a time)

→ Visoka kompaktnost i veliki kapacitet Ultra-compact yet high capacity!

→ JET - stolni model
JET - Counter-top model

→ JET je Cosmetalov aparat za vodu, dizajniran za cijelu obitelj. Zahvaljujući njemu, ne morate više kupovati vodu u boci – ne misleći samo na novac koji ćete tako uštedjeti, nego i na mjesto koje ćete osloboditi u hladnjaku. Lako se postavlja na vodovodnu mrežu. JET čuva higijenu vode za piće osiguravajući svaku kap sigurnom. Sa svojim privlačnim dizajnom, savršena pristaje svakom ambijentu.

→ The JET is Cosmetal's domestic water cooler solution, designed for use by the whole family. Thanks to the JET, you no longer need to buy water bottle after water bottle - think not just of the money you'll save, but also the space in your fridge! Easily attached to your mains supply at home, the JET preserves the hygiene of your drinking water, making every drop dispensed as safe as possible. With its stylish design, the JET fits in perfectly in any domestic setting.

→ JET IN - Model za ispod pulta
JET IN - Under-counter model

→ Visoka kvaliteta i tehnologija Hi-tech and high-quality

Dostupni u verzijama ispod pulta i na pultu, JET je konstruiran od najboljih materijala i odražava najnoviju tehnologiju, visoko kvalitetnih i lako uporabljivih aparata koji nude visoki stupanj higijene. JET IN je najbolje rješenje za male prostore – lak za instalaciju, idealan za prostor ispod pulta, te oslobađa prostor. Ovaj aparat može biti opremljen sa velikim brojem ergonomski dizajniranih slavina.

- Patentirani anti bakterijski UV sistem štiti područje točenja od zagađenja.
- Kroz specijalni zaštitni gumb na kontrolnoj ploči JET opskrbljuje vrućom vodom na 95°C.
- Santa leda je spremnik koji može stalno pribavljati hladnu, pročišćenu ili gaziranu vodu.
- Ako je potrebno filteri se mogu dodati kako bi se poboljšao okus i aroma vode.
- Posuda za višak vode ispod mjesta točenja dostupna je kao plastična ili od nehrđajućeg čelika; može biti opremljena i sa odvodom kako bi pražnjenje bilo još lakše.

Available in counter-top and under-counter versions, the JET is constructed from the finest materials available and features state-of-the-art technology, making it a highly functional, easy-to-operate cooler that offers unrivalled levels of hygiene.

- Patented anti-bacterial UV system further protects the dispensing area from contamination (mod. UV).
- Through a special safety button on the control panel, the JET supplies hot water at 95°C.
- Ice bank can continually produce all the cold, still and sparkling water you need!
- The unit has been completely re-projected and provided with innovative technical solutions which offer higher efficiency and performances.
- If necessary, filters can be added to improve the taste and aroma of the water dispensed.

→ slavine za JET IN / taps for JET IN

G612 + VR-P

Zakrivljena slavina sa dvije mehaničke tipke za kontrolu.

2-way lever-operated tap.

G662 + VR-P

Slavina sa dvostrukom ručicom za kontrolu protoka.

Lever-operated double dispenser tap.

G663 + VR-P

Slavina sa trostrukom ručicom za kontrolu protoka.

Lever-operated triple dispenser tap.

G68N + VR-P

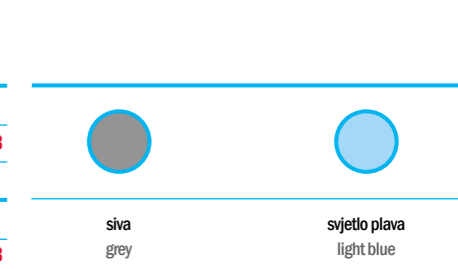

Slavina u koloni sa 3-smjera i ručicom za kontrolu protoka.

3-way column taps with lever.

JET cabinet

→ Pravi izbor za svaki ambijent The right choice for any surroundings

- Brušeni čelik osigurava trajnost.
- Držač čaša smještena u pozadini vrata ormarića može držati do 100 čaša, dok je unutrašnja polica savršena za pohranu čaja ili drugih pića.
- Izdašni odjeljak za pohranu ima mjesta za filtere ili bočice za CO2 (za uporabu na aparatima JET za gaziranu vodu).
- U unutrašnjosti se nalazi specijalna konzola koja omogućava lako umetanje filtera. Štoviše, oni dolaze sa izbušenim zaštitnim rupama tako da tube za filtriranje ostaju skrivene.
- Sa svojim ormarićem JET je lakše locirati blizu ostalih uređaja za piće.
- Ormarić se može zaključavati, sa podešavajućim postoljem lak je za korištenje.
- The brushed steel finish guarantees durability.
- The cup-holder - mounted on the back of the door - can store up to 100 cups, while the built-in shelf is perfect for storing tea and other drinks.
- The generous storage compartment has room for filters or gas cylinders (for use on JET models that also dispense sparkling water).
- On the inside, there is a special bracket to allow for easy insertion of filters. Moreover, the unit comes with pre-drilled rear exit-holes so as the filtration tubes that connect to the JET remain hidden.
- With its practical cabinet, the JET is even easier to locate next to other drinks dispensers.
- Lockable cabinet door with adjustable feet and handle for easy maneuvering.
